

1. After extracting the files from the .zip file, you will be prompted with the following files/folders:

2. Right-click on the 'setup' file and select: 'Run as administrator':

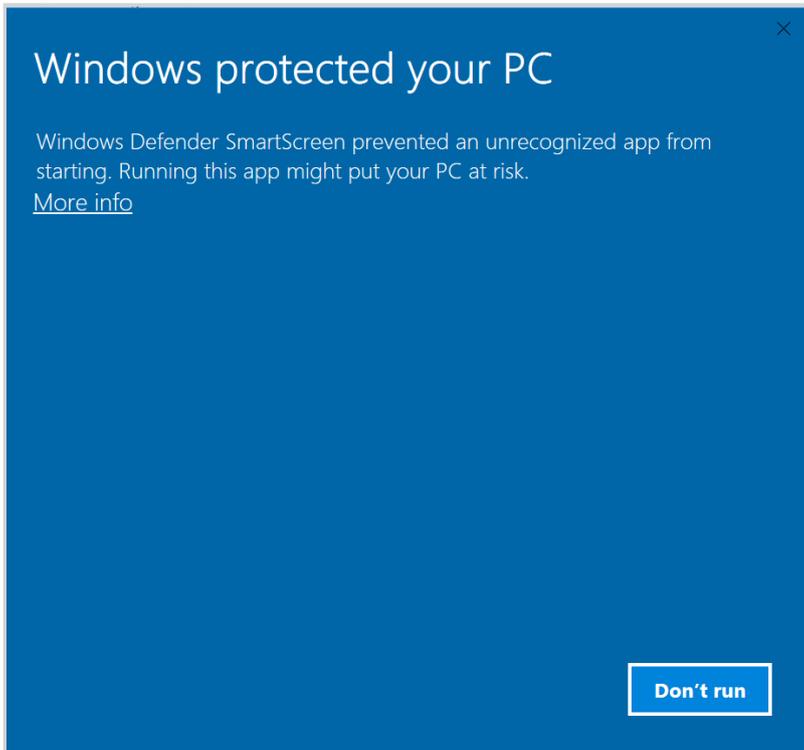

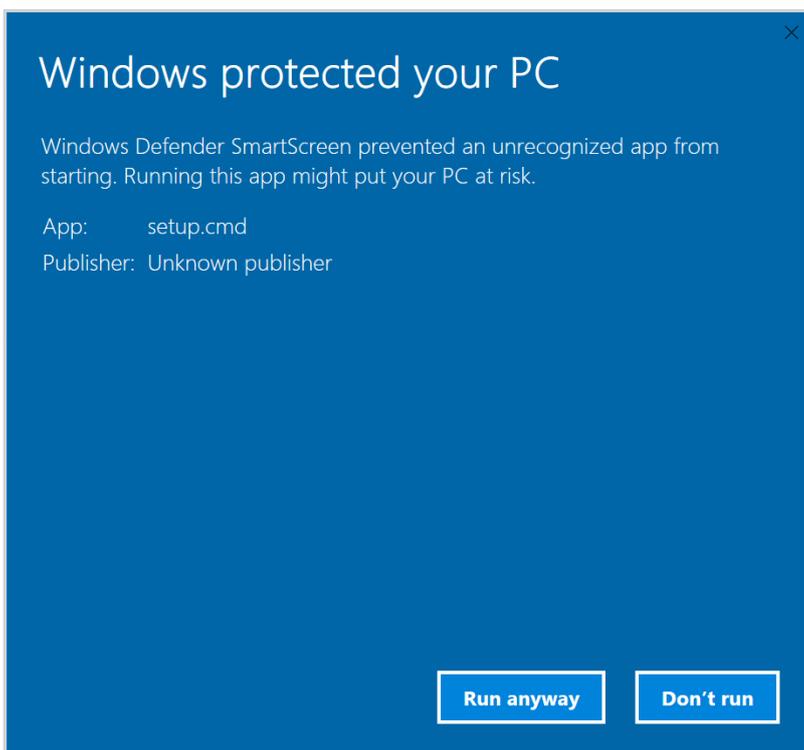

Sirius A (Pro)

Driver installation

3. In some cases you might be prompted with the following notification. If not, proceed to step 5.

4. Click on 'More info' and click on 'Run anyway':

5. You will be prompted with the following screen. The drivers will automatically be installed. In some cases a 'failed to install driver' notification may be noticeable, this is part of the installation progress and there is no need to report this notification. The driver installation process may take up to 5 minutes to complete. As soon as the process has been completed, the window will be closed automatically.

```
